Output:

A screenshot of a web browser displaying the 'Interactive Student Result Dashboard'. The browser's address bar shows '127.0.0.1:5500/project8.html'. The dashboard has a purple and white abstract background. A white form is centered on the page with the following fields:

- Student Name:
- Student Reg:
- HTML Marks:
- CSS Marks:
- JS Marks:

The Windows taskbar at the bottom shows the search bar, task view button, and several application icons. The system tray on the right indicates 'ENG IN', signal strength, 99% battery, and the time '22:13' on '01-10-2026'.

A screenshot of the same web browser displaying the 'Interactive Student Result Dashboard' after the form has been submitted. The form fields for 'CSS Marks' and 'JS Marks' are visible. Below them is a pink button labeled 'RESULT'. A green vertical line separates the input area from the 'student details' section, which displays the following information:

- Student Name:
- Student Reg:
- HTML Marks:0
- CSS Marks:0
- JS Marks:0

The background of the dashboard now includes a decorative image of white flowers in a vase on the left side. The browser's address bar and the Windows taskbar remain the same as in the previous screenshot.
